

# Network Television And The Public Interest: A Preliminary Inquiry

Preliminary Submission – Committee Stage  
Historical Abuse Inquiry Bill  
De La Salle Order

The De La Salle Order welcomes this inquiry. It trusts that a fair, unhindered and comprehensive inquiry into all aspects surrounding the operation of residential 'institutions' will provide a source of comfort and closure for all former residents, staff and their families.

During the relevant period the De La Salle Order provided teaching and care staff to two 'institutions', namely the De La Salle Boys Home at Kircubbin ('Rubane House') and St Patrick's Training School on the Glen Road, Belfast ('St Patrick's'). Both properties were owned by the Diocese of Down and Connor and it was the Diocese who appointed the respective Boards of Management. Rubane House operated from 1951 – 1985 and St Patrick's, under the auspices of Milltown School from 1917 to 1957 and thereafter as St Patrick's Training School.

The Order's records indicate that 982 boys were cared for in Rubane. The records relating to St Patrick's are currently in the custody of the Youth Justice Agency and we are unable to give, even approximate, figures.

The Order is determined to provide every assistance to the Inquiry. It recognises the importance of their role in the care of deprived children during the relevant period and the knowledge and evidence they can give to the Inquiry. The De La Salle Order co-operated fully with the Kinora Inquiry of 1984, with extensive RUC investigations in 1980 and 1995 and continues to the present day to provide assistance to the PSNI with their ongoing criminal investigation.

We consider it important that at the outset we acknowledge now, with the benefit of hindsight and the testimony of former residents who have confided in us, that 'abuse' (and we do not seek to define the term in this submission) did occur within homes staffed by the De La Salle Order. The Order deeply regrets that such abuse occurred.

Having considered, The Terms of Reference and the draft Bill the Order makes the following points/observations which they trust will be taken in good faith:

## (1) The Terms of Reference

### (i) State Involvement

The Order considers that further clarity is required to ensure that all stakeholders know the remit of the Inquiry. The Inquiry 'is to examine if there were systemic failings by institutions or the state in their duties towards those children in their care'. Within the context of residential homes it could be interpreted that the Inquiry will focus on the running of religious/Catholic and State homes independently. The wording suggests that there were children in institutions who were not in the care of the state. By virtue of the Children and Young Person Act 1950 the state had responsibility towards all children within it. We consider it vital that the role of the state be an integral part of this inquiry whether the
